

## National Young People's Inpatient and Day Case survey

This hospital will soon be carrying out a survey to find out what young patients and their parents or carers think about the care they received while in hospital.

This is part of a national programme to improve quality of care and patients' experiences.

Taking part in the survey is voluntary, and all answers are confidential. If you and your child are selected to take part, researchers will use your child's contact details to post a questionnaire to your home address.

If you do not wish to take part, or have any questions about the survey, please contact:
