

Can you help us improve children's hospital care?

Has your child has been admitted to hospital in the last 4 months? If so, we need your help to shape the 2026 Children and Young People's Patient Experience Survey.

Take part in a 60-minute informal video interview about your child's experiences of inpatient or day-case services and your experiences as their parent or carer.

Participation is **voluntary** and all answers are **confidential**.

You'll receive £100 as a thank you for your time. You can choose to receive this as a gift card or transfer by bank.

To volunteer, please email us at volunteer@surveycoordination.com or call 01865 208135.
