

Service User Questionnaire (Scored)

What is the survey about?

This survey is about **your experiences** of the health and social care you receive through NHS mental health services. We're interested in your views of that experience, even if your contact has only been limited or has now finished.

Your feedback is very important in helping us gain a picture of the care you received. The information will be used to help improve NHS mental health services.

Who should complete the questionnaire?

The questions should be answered by the person named on the front of the envelope. If that person needs help to complete the questionnaire, the answers should be given from his/her point of view – not the point of view of the person who is helping.

Completing the questionnaire

For each question please cross clearly inside one box using a black or blue pen. If you prefer not to answer a question, simply leave it blank.

Sometimes you will find the box you have crossed has an instruction to go to another question. By following the instructions carefully you will miss out questions that do not apply to you.

Don't worry if you make a mistake; simply fill in the box and put a cross in the correct box.

Please **do not** write your name or address anywhere on the questionnaire. All your answers will be kept confidential. It will not be possible to identify you in any report of the results.

Questions or help?

If you have any questions, please call the survey helpline on **<insert helpline number>**.

If you have concerns about the care you or others have received please contact the Care Quality Commission (CQC) on **03000 61 61 61**.

Taking part in this survey is voluntary.
Your answers will be treated in confidence.
